

# CBL 410 PCC

## Conference microphone

### Features

- Small and inconspicuous
- Light
- Exceptionally rugged
- Excellent sound quality
- High sensitivity
- Low self-noise
- 3.5mm

This microphone provides optimum intelligibility and audio quality for your meetings. The CBL 410 PCC is also an excellent choice for recording applications.

Insert the plug on the cable of your CBL 410 PCC into the microphone input jack on your computer, portable transmitter or Smartloop. The microphone is a true "plug and play" device, so there is no need to install a driver.

Place the microphone as far away from any loudspeaker as possible and as close as possible to the talker. Your microphone is now ready to operate.

For online meetings with several talkers at your end of the line, you will need more than one CBL 410 PCC to capture all voices in the best possible way.

## Technical data

---

<b>Modell</b>	AKG CBL 410 PCC
