

Univox® NL-100

Soft Textile Induction Neck Loop

FEATURES

- Adjustable length: 20 cm cable with 70 cm extension lead
- Compatible with all brands and models of T-coil-equipped hearing aids
- Plug-and-play: switch hearing aid to T-mode, connect to device, and listen
- Textile outer cover for enhanced wearing comfort
- Standard 3.5 mm connection

Comfortable neck loop with excellent frequency response

An inductive neck loop is a personal assistive listening accessory for people who are hard of hearing and use hearing aids equipped with a T-coil. Since each hearing aid is configured with a custom frequency response and dynamic range tailored to the user's hearing impairment, the NL-100 delivers audio from its connected device with crystal-clear quality and minimal latency.

Univox® NL-100 can connect to and receive signals from various sound sources. It sums both right and left audio channels to ensure a strong and steady signal for the user. A 70 cm (27.5 in) extension lead is included in the package.

The loop is covered with a soft fabric sleeve, making it more comfortable to wear for extended periods compared to traditional bare-cable neck loops.

Domestic use

The 3.5 mm male plug connects to any audio device with a standard 3.5 mm headphone jack, such as portable music players, Bluetooth receivers, and similar sources. For domestic use – e.g. with a loop amplifier connected to your TV – an extension cable may be used if needed.

Group communication and tour guides

Beyond domestic use, the NL-100 demonstrates its full versatility in professional settings, particularly when used with Univox® FM systems, IR systems, or tour guide solutions. No setup or special configuration is required. Simply switch your hearing aids to T-mode, connect the NL-100 to a receiving device – just like any wired headphones – and enjoy clear, personalized audio.

TECHNICAL SPECIFICATIONS

Resistance	2 x 12.5 Ohm
Frequency response	50Hz-15kHz, -3dB, rel. 1kHz
Connector	3-pole angular 3.5 mm plug
Dimensions	
Circumference	74 cm (29 in)
Cable	20 cm (7.8 in)
Extension lead	70 cm (27.5 in)
Weight (net)	20 g (0.7 oz) including extension lead
Color	Black
Part no.	283103
